To Whom It May Concern:

Alan Baumann has worked as a CT Technologist trainee at the University of Texas Medical Branch Hospital through the CT program at Galveston College from January through March 2005. I am writing this letter to highly recommend him to your organization. Although he was a trainee, he worked with me as a Jr. CT Tech requiring minimal supervision.

Alan performed all general aspects of CT, including routine exams, biopsy cases, and recons and reformats with outstanding proficiency. He is punctual, dependable, and maintains a positive attitude even under the day-to-day stresses of the profession.

I personally worked with Alan over these three months and logged hundred cases with him. Alan works with enthusiasm and professionalism and will make a good CT Tech for someone who uses his services.

If you would like to speak to me about Alan's skills, talents and work habits, feel free to call (409) 772-3932 or email me at: dsdafont@utmb.edu

Sincerely,

A handwritten signature in black ink that reads "Dario S. Dafonte R.T." The signature is written in a cursive style with a large initial 'D'.
